BROADCAST MESSAGE TO ALL FIELD USERS
FROM SYSTEMS OPERATIONS

SUBJECT: CANO Scroll Enhancement

Merry Christmas everyone! In keeping with the spirit of giving during the holidays, we squeezed in an extra gift we hope you will like! Effective immediately the CANO screen will include a new scrolling feature: PF4=REV (REVERSE). When selected, the CANO list will re-sort and display the case notes in reverse order, from the oldest record date to the most current date. This will save time when reviewing initial case notes.

THANK YOU to Sue Skinner for submitting this suggestion.
